

Moles Class Summer Overview

History and Geography

Our topics in the summer term will begin with a history study of ancient Egypt. In this module we will be learning about who the Egyptians were and where they came from. What life was like back then, mummies and what Egyptians believed about the afterlife and Egyptian gods.

We will then be completing a geography unit on rivers, oceans, and the water cycle. We will be staying in Egypt and be learning about the river Nile, the features of the river and why it is so important to millions of people's lives.

Science

In Science we will be firstly studying electricity. Learning about how electricity travels, what a complete circuit is as well as investigating what materials are electrical conductors.

We will also be studying states of matter after half term. We will learn about solids, liquids and gases, evaporation, and condensation as well as the water cycle.

Art and Design

In Art we will be learning about sculptures and different materials. We will be using materials like soap, wire, and recycled materials to create sculptures.

P.E

In P.E this term Mr. Knight will be teaching cricket and tennis in the first half term followed by athletics after half term.

Computing

In computing we will first study a unit about desktop publishing. This will look at how we can use text and images to communicate, looking at road signs as an example. We will then be creating our own documents and looking at how we can edit out text to stand out more and how we can display information to be more appealing to readers.

PSHE

SCARF- our units will be 'Being my best self' and 'Growing and changing'.

Religious Education

In R.E we will be studying how do festivals and worship show what matters to Muslims. We will learn about different Muslim festivals and why they are celebrated.

English

This term we will be studying 'The Tear Thief' by Carol Ann Duffy. The children will be looking at the writing techniques used in the book such as similes, metaphors and imagery and learning how to use these techniques effectively in their own writing. We will also be looking at some more of Carol Ann Duffy's poetry and try to write some of our own poems.

Maths

YEAR 3 – Year 3 will be finishing their unit on fractions before moving onto column addition and subtraction and then short multiplication.

Year 4 – Year 4 will be learning how to multiply 2,3- and 4-digit numbers by 1-digit numbers as well as short division. We will also be learning about fractions, decimals, and percentages.

French

In French our first unit will be about 'our school' learning how to talk about all the different subjects we learn about in school in French.

After half term we will be learning about how to talk about the time in French.
